

SIR THOMAS BOUGHEY ACADEMY

November 2017

Dear Parent,

As part of your child's learning in Mathematics, the Faculty is launching the use of a digital revision tool which will support your child's progress in the subject. It is called the PixL Maths App and is designed to be user friendly and enables pupils to practice their Mathematics whenever and wherever they choose. It works on the basis of your child initially testing themselves in the subject. The App will then analyse the results and suggest areas for improvement, providing help videos so any areas of weakness can be addressed.

As a Maths Faculty we have launched the App to the pupils in an assembly today and would like to offer you the opportunity to attend an information evening where we can provide more details of how it works so that you can be fully involved in your child's learning throughout this crucial year.

The evening will take place on Tuesday 28th November at 6pm.

If you have any questions, please do not hesitate to contact me by telephoning the school switchboard or email me at r.smith@stb.academy

Yours faithfully

Mr R Smith
Head of Maths Faculty
